

Dish Antenna For MiMO Radios 5.150 ~ 6 GHz

Making A long Range Point To Point Connections

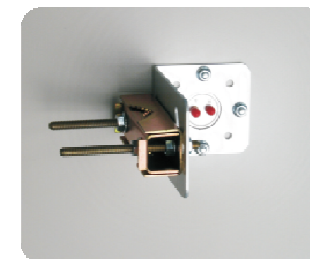

Features

- Wide Band Operation
- Vertically And Horizontally Polarized
- Extremely Rugged For Extreme Environments

Electrical Specification

Part Number	HG527MD
Frequency Range	5150 ~ 6000 MHz
Gain	27 dBi
Beam Width	6.5 Degree
VSWR	1.5 : 1
Impedance	50 Ohms
Input Power	32 W
Connectors	2 X SMA-Female
Side lobes	-25 dB
Front To Back Ratio	-30 dB
Cross pole	-20 dB

HG527MD

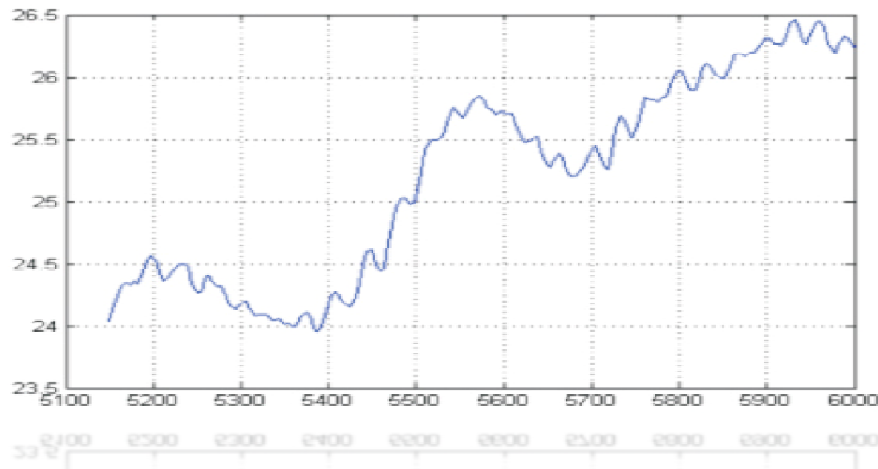

Dish Antenna For MiMO Radios 5.150 ~ 6 GHz

Making A long Range Point To Point Connections

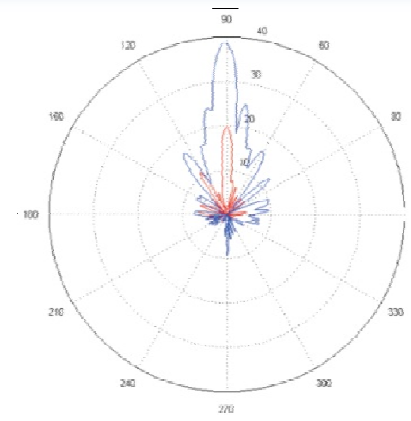

Mechanical Specification

Size / Diameter	550 mm
Weight	2.4 Kg
Wind Loading	200 Kmph
Distance	25 Km
Operating Temperature	-50° C To 70° C
Mounting Kit/Style	Included Pole Mount
Additional Features	Dual Polarized Antenna

Antenna Gain From 5.150 To 6 Ghz

5.5 Ghz E-Plane and H of E-Plane

5.5 Ghz H-Plane and E of H-Plane
